Recent progress in Nilearn

Yasmin Mzayek
Research engineer
INRIA

Alexis Thual
PhD Student
INRIA/Neurospin

OHBM Brainhack 2022

17/06/2022

About Nilearn

- Open-source Python neuroimaging toolbox

About Nilearn

- Open-source Python neuroimaging toolbox

- Statistical analysis and machine learning on brain images

OHBM Brainhack 2022

About Nilearn

- Open-source Python neuroimaging toolbox

- Statistical analysis and machine learning on brain images
  - Connectivity analysis
  - Decoding
  - General linear models (GLM)
  - Image manipulation routines
  - Plotting

OHBM Brainhack 2022

About Nilearn

- Open-source Python neuroimaging toolbox

- Statistical analysis and machine learning on brain images
  - Connectivity analysis
  - Decoding
  - General linear models (GLM)
  - Image manipulation routines
  - Plotting

- Documentation: nilearn.github.io

OHBM Brainhack 2022

Demo:

- Interactive surface plotting with Plotly [example](#)

Nilearn at Brainhack

Thank you!

- Neurostars for usage questions

- Github for bug reports, feature requests, and documentation changes

- Weekly office hours, Friday 4pm UTC on Discord (pause for summer break, restart in September)

- Nilearn Twitter
